Dear Team,

Greetings from BAJA SAEINDIA!

We hope you are doing well and continuing to make steady progress on your vehicle development. We understand that you are still in the midst of system integration and fine-tuning, and we truly appreciate the effort and commitment your team is putting into building the vehicle.

Based on your current stage of development, **we understand that it may not be possible to evaluate your vehicle's performance in the DBW Physical Evaluation as originally intended. Consequently, your team will not be awarded scores for this round, which accounts for 40 points as outlined in the Drive-By-Wire System Evaluation Guidelines that was released on the [BAJA SAEINDIA Forum](#).**

This evaluation is only meant to serve as a helpful checkpoint in your journey towards the final event, which carries the highest weightage in the overall scoring. We look forward to seeing your continued progress in the coming weeks and sincerely hope to see your vehicle ready for participation in Phase 3 at the Main Physical Event!

Should you have any queries, please get in touch with your Alumni Coordinator.

Wishing you the very best for Phase 3!

Best Regards,
BAJA SAEINDIA
